## ADDACTIS® Pricing

**Worldwide actuarial software. European Expertise. Local solutions. Big capacity & performance driven actuarial software. User friendly, SII compliant, IT integration.**

Non-life insurance business has changed. Increased competition on price and price transparency, makes it harder to win business, to keep existing clients and maintain profitability. Actuaries are at the center of this battle for share of market and profitability, and they rely on powerful, easy to use and secure actuarial software to achieve it.

ADDACTIS® Pricing is specially dedicated to modeling needs of non-life (motor, household) pricing actuaries. At the core of the software is a GLM engine designed to handle big data and to deliver very rapidly detailed results. A unique combination of graphs and tables helps you understand the data. Statistic models impact analysis and simulations make it easy to reach the right business decisions.

ADDACTIS® Pricing is more flexible than other existing pricing tools due to its highly user friendly interface. With ADDACTIS® Pricing the entire pricing process is integrated and documented. ADDACTIS® Pricing

manages the data preparation, cleaning, mining and analysis processes of the model with a powerful GLM/GAM engine. ADDACTIS® Pricing consolidates different scenarios and impact analysis. ADDACTIS® Pricing includes splines, large claim handling and model comparison. It also integrates a user friendly zoning module for geo-spatial smoothing. Impact analysis and out-of-sample simulations prepare the pricing decisions and help increase the profitability of your insurance business.

ADDACTIS® Pricing makes it easy to exchange results and keep track of all decisions made to elaborate the tariff. A full audit trail is provided of all changes made during the pricing process. Also included in ADDACTIS® Pricing are prints and exports of all intermediate results with a possible access to external databases.

ADDACTIS® Pricing is your tool to prepare efficient and profitable pricing in an user friendly environment.
